

Analogue time

Remember: The short hand shows the hour and long hand shows the minutes.

60 minutes = 1 hour

60 seconds = 1 minute

$\frac{1}{2}$ hour = half past

$\frac{1}{4}$ can be past or to the hour

- a What are the times shown on these clocks?
The first one has been done for you.

4 o'clock

4

5

6

b Draw in the hour and minutes hands on the clocks to show the times given:

1

2

3

4

5

6

7

8
