

Patterns

Patterns are everywhere. Look at the pictures below.
Can you see the patterns?

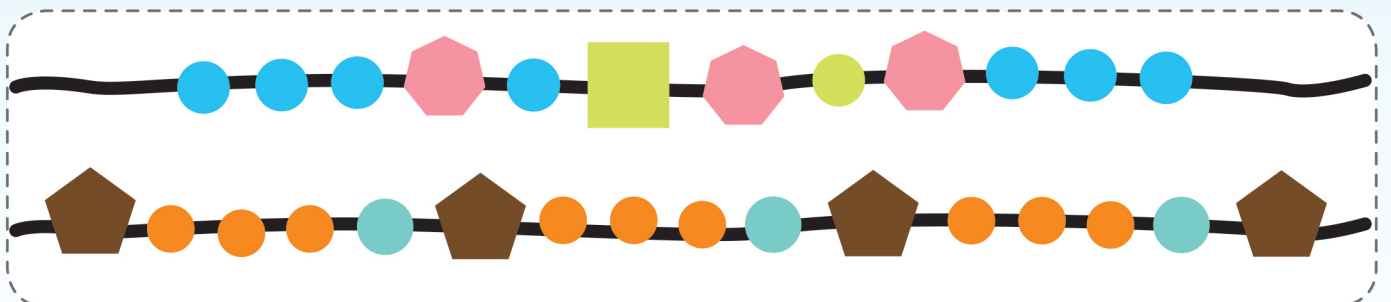

Which character comes next in this pattern?

1 Circle the string of beads that **does not** make a pattern.

2 Circle the string of beads that **does** make a pattern.

3 Can you describe the last pattern in words?

4 Draw in the missing fruit and vegetable to form the pattern:

5 Now draw your own repeating pattern. It can be anything you like!

Patterns, Functions and Algebra

Copies, extends and describes in words simple patterns made with drawings of lines, shapes or objects.
