| Horse     | 10    | Zebra     | 2, 4, 11 |
| Leopard   | 2, 11 |           |          |

### Reading and Phonics

Uses an index to find information.

Look at the index and answer the following questions:

1 What do you think the book that this index is from is about?

2 Is the book that this index is from fiction or non-fiction?

3 Why do you think that the alligator and the crocodile are listed as being on the same page?

4 Where does one find an index in a book?

5 How is the index laid out? (How is the list of topics arranged or ordered?)

6 On which page would you find information about tigers?

7 On which page would you be able to read about zebras?

8 Why do you think that the information on zebras is found on the same pages as the crocodile and the leopard?

9 Is this easier to use than a table of contents?
