

Interpreting information

Look at the graph above.

Which is the tallest tree?

How tall is the Acacia tree?

How many bushes on top of one another would be needed to reach the height of the Jacaranda tree?

Put the trees in size order from smallest to biggest.

1		3	
2		4	

Can you think of a good heading for this graph? Write it at the top of the graph in the box.

Reading and Phonics

Interprets information from graphical text such as advertisements, pictures, graphs and charts.
