ENGINEERING GRAPHICS AND DESIGN P2

MAY/JUNE 2024

MARKS: 100

TIME: 3 hours

This question paper consists of 6 pages.

INSTRUCTIONS AND INFORMATION

1. This question paper consists of FOUR questions.
2. Answer ALL the questions.
3. ALL drawings are in third-angle orthographic projection, unless otherwise stated.
4. ALL drawings must be prepared using pencil and instruments, unless otherwise stated.
5. ALL answers must be drawn accurately and neatly.
6. ALL the questions must be answered on the QUESTION PAPER, as instructed.
7. ALL the pages, irrespective of whether the question was attempted or not, must be re-stapled in numerical sequence in the TOP LEFT-HAND CORNER ONLY.
8. Time management is essential in order to complete all the questions.
9. Print your examination number in the block provided on every page.
10. Any details or dimensions not given must be assumed in good proportion.

P+

QUESTION 2: LOCI (CAM)

Given:

- The detail of a camshaft and a wedge-shaped follower at the minimum distance from the camshaft centre
- The position of centre point P on the drawing sheet

Specifications:

- The wedge-shaped follower reciprocates along a 60° line that passes through the centre of the camshaft.
- The **minimum** distance from the follower to the centre of the camshaft = 20 mm
- Rotation = anti-clockwise

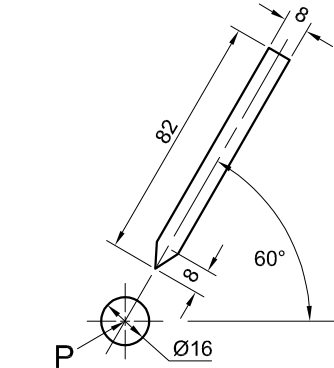

Motion:

The cam imparts the following motion to the wedge-shaped follower:

- It rises 40 mm over the first 60° with uniform motion.
- There is a dwell period for the next 30°.
- It rises to its maximum displacement of 80 mm over the next 90° with uniform motion.
- It descends 40 mm over the next 90° with simple harmonic motion.
- It returns to its original position with uniform acceleration and retardation over the remainder of the rotation.

Instructions:

- Using centre point P on the drawing sheet, draw, to scale 1 : 1, the camshaft and wedge-shaped follower in the given position.
- Draw to a rotational scale of 30° = 8 mm and a displacement scale of 1 : 1, the complete displacement graph for the required motion.
- Using the given position of the follower as 0°, project and draw the cam profile from the displacement graph.
- Indicate the direction of rotation on the cam profile with an arrow.
- Indicate the rotational scale of the graph.
- Show ALL construction and projection. [37]

WEDGE-SHAPED FOLLOWER AND CAMSHAFT DETAIL

ASSESSMENT CRITERIA					
1	GIVEN + MINIMUM DISTANCE + CL	5			
2	GRAPH CONSTRUCTION	7			
3	PLOTTING GRAPH + GRAPH CURVES	9			
4	CAM CONSTRUCTION	5

QUESTION 3: ISOMETRIC DRAWING

- Given:**
- The front view, top view and right view of a casting
 - The position of point A on the drawing sheet

Instructions:
Using scale 1 : 1, convert the orthographic views of the casting into an isometric drawing.

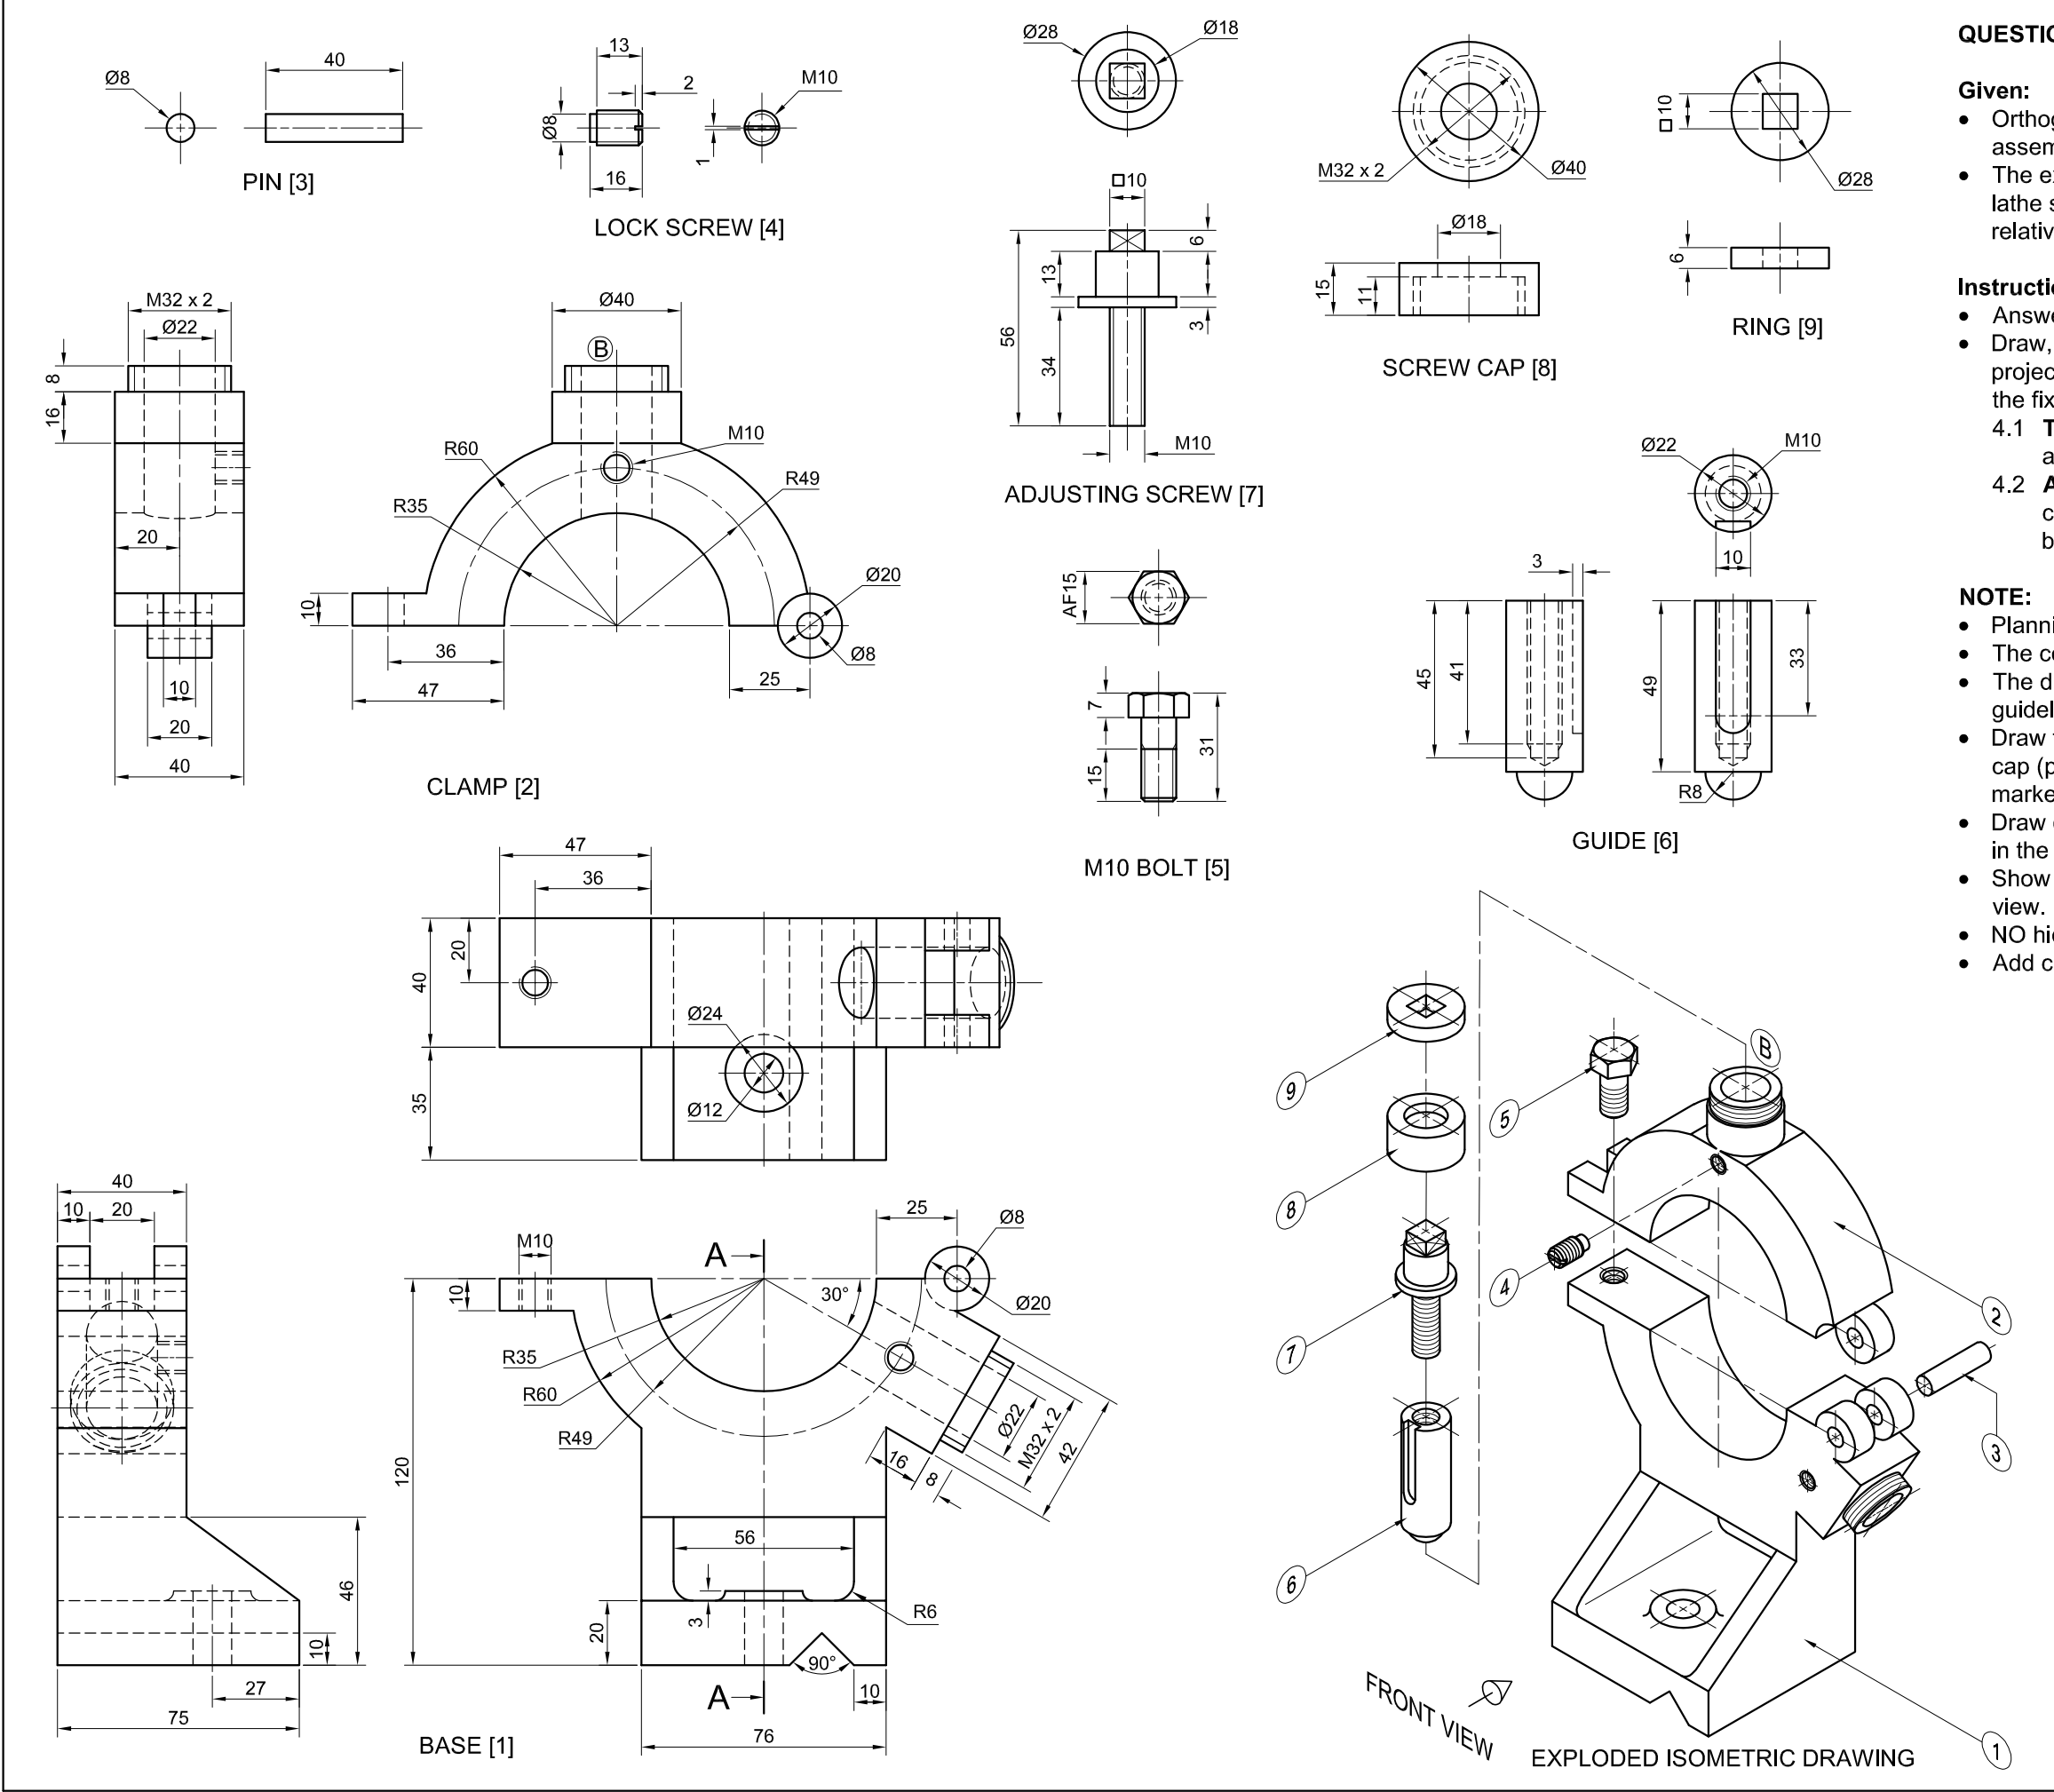

- Use A as the starting and lowest point of the drawing.
- Show ALL construction.
- NO hidden detail is required.
